Re: Keystone Sanitation Landfill
in Union Township, Adams
County, Pennsylvania

Mr. Edward R. Simmons
Solid Waste Coordinator
Department of Environmental Resources
140 Roosevelt Avenue
York, Pennsylvania 17404

Dear Mr. Simmons:

We are in receipt and acknowledge your letter of February 9, 1972, with reference to the on-site soil geologic evaluation made by Department personnel on January 19, 1972. With regard to said evaluation, we are ~~presently in the process of having a geologic evaluation made through our engineering firm of Nassaux-Hemsley, of Chambersburg, Pennsylvania.~~ We, of course, do not agree with the Department's evaluation or with the conclusions set forth in your letter of February 9, 1972.

After we have reviewed the terms of your letter and the findings of our own engineering firm, we will request further review of this matter by the Department.

~~In the interim and in the future, all further on-site evaluations of our landfill operations by the Department will have to be accomplished in the presence of representatives of our engineering firm, Nassaux-Hemsley. Therefore, will you kindly advise us 48 hours in advance of any evaluation, inspection or visit by the representatives of the Department of Environmental Resources. This 48-hour notice will afford us the opportunity to have our own engineering representative on-site to accompany the Department representatives during their various inspections.~~

Very truly yours,

Ronald J. Hagarman
